

## Solid State Power Amplifiers (SSPA)

We are pleased to announce our new family of Solid State Power Amplifiers (SSPA), that provides it all, CW operation and pulse in the same amplifier such as 500W CW power, adjustable from 0 to 500WCW, and the same amplifier can be pulsed from 0.001% to 100%(CW) as well. Here for the first time, a true dual function power amplifier. We can offer full 80MHz to 1GHz, 1GHz to 4 GHz bands etc. Unit comes with GPIB standard, and EM port. Operational to 40 degrees C ambient and 220V operation. Other RF powers (higher and lower) and frequency bands available, of course. Used for all kinds of high RF power testing, such as antenna testing and any high power applications.

**RADITEK** specializes in RF Design and Development of "High Volume / Low Cost" Microwave, Wireless and Telecom Broadband Components, Assemblies and Systems. Please see our website at <http://www.Raditek.com> or email us at [Sales@Raditek.com](mailto:Sales@Raditek.com) with any questions you may have.
