

RADITEK INC.

RADITEK specializes in Design, Development, and Manufacturing of "High Volume/Low Cost" Wireless and Microwave products. Our waveguide isolators operate up to frequencies beyond 100GHZ. Low loss and high isolation is standard, the standard units are typically clear or yellow alodined aluminum. The ultra, low loss units are silver plated brass construction, most Waveguide type can be supplied in either metric, US threads or through holes.
