## Surface Mount Stripline Circulator

**RADITEK** specializes in Design, Development, and Manufacturing of "High Volume/Low Cost" Wireless and Microwave Isolators and Circulators. Our newest Surface Mount Stripline Circulator product line is the answer for high volume, automated assembly requirements. These low loss, high performance products are currently available in all the major cellular bands. Typical IMD for 859-894MHz parts, for example, are around 70 dBc (2 x 50W tones). Please note: These products are not available as isolators, as it is recommended the customer reflow solder the load down at the same time as the isolator, for best performance and to maintain lowest cost. Currently available in 869-894MHz, 925-965MHz, 1805-1880MHz and 1930 to 1990MHz.. The units are proven in the field and are fully ROHS compliant. Please see our website at <http://www.raditek.com/> or email us at [Sales@Raditek.com](mailto:Sales@Raditek.com) with any questions you may have.
