

## High Performance Synthesized PLO

**RSPLO-L101 Series:** Our new high performance Synthesized PLO is a cost effective solution to generate a frequency that's non-harmonically related to the reference. This allows Frequency Selection to 1 MHz accuracy. These offer PLDRO like fixed frequency performance and are surprisingly low cost, with very respectable phase noise. Options: External Reference ER100M or ER10-90M (in 10MHz increments). Internal Reference IR 1ppm (0.1ppm optional) These units are available in frequency ranges from 100MHz to 26GHz.

**RADITEK** specializes in RF Design and Development of "High Volume / Low Cost" Microwave, Wireless and Telecom Broadband Components, Assemblies and Systems. Please see our website at <http://www.Raditek.com> or email us at [Sales@Raditek.com](mailto:Sales@Raditek.com) with any questions you may have.
