

C-Band & Ku Band Low Noise Amplifiers

RADITEK's High Stability C-Band LNA's is the latest addition to our SATCOM products and offers premium performance and reliability. The latest technology used produces the lowest possible noise temperature in an uncooled LNA. Designed for satellite earth station receiver front ends and other applications, utilizing state-of-the-art technology. Designed for both fixed and transportable applications

Features:

- Available for all C-Band & Ku-Band Frequencies
- Excellent gain flatness and gain stability
- Low current consumption
- High/Small Signal gain
- Wide gain control range
- Low noise figure

RADITEK specializes in RF Design and Development of "High Volume / Low Cost" Microwave, Wireless and Telecom Broadband Components, Assemblies and Systems. Please see our website at www.Raditek.com or email us at Sales@Raditek.com with any questions you may have.
